

# Israeli occupied territories

The aim of the Middle East peace conference is to reach a settlement based on the 1967 United Nations Security Council Resolution 242. The Arab states want Israel to withdraw from all occupied territories

## RESOLUTION 242

"Withdrawal of Israeli forces from territories occupied" during the Six-Day War

Hard-line Israelis claim that by returning the Sinai peninsula to Egypt, Israel has already complied with Resolution 242. America wants Israel to withdraw from occupied territories but not necessarily a return to pre-1967 borders
