

# Bob's your uncle

All you have to do is one simple thing  
and ***Bob's your uncle*** – you have  
achieved something very easily. Just as

Arthur Balfour did in 1886. He was the  
nephew of the then Prime Minister, Lord  
Salisbury, whose first name was Robert.

When Balfour was appointed to an  
important government post, many felt the  
job had been given not on merit, but  
because ***Bob was his uncle***. Balfour  
actually proved to be a formidable  
politician and became Prime Minister  
himself
