

Hidden sex game

The best-selling *Grand Theft Auto: San Andreas* video game has been given an adults only ratings in the U.S. after explicit sexual content was found in it. The interactive sex scenes – in both the Xbox and PlayStation versions – were revealed after installing a patch known as *Hot Coffee*, developed by a Dutch fan of the game

Hot Coffee

patch enables buttons to control performance of title's protagonist, **CJ**, when he drops in for "coffee" at girlfriends' homes
