

Zoom-Zoom – supermini for iPod generation

Extensive use of high-tensile steel enables the all-new Mazda 2 to weigh in at 100kg less than the car it replaces, improving both performance and fuel efficiency. A relatively long wheelbase allows more room – both front and rear – giving one of the most spacious interiors in its class

Under the bonnet:

Choice of three petrol engines – 1.3 litre / 75bhp, 1.3 litre / 86bhp, and 1.5 litre / 103bhp. Diesel available by end of year

Rear: Room for two adults

Luggage: Boot takes 250 litres

Wheelbase: 2,490mm

Features: Cruise control, steering wheel mounted audio controls, electric mirrors, automatic lights and windscreen wipers

CD stereo: Has auxiliary jack for MP3 player – choice of two, four or six speakers

Design: Circular theme of big speedometer extended to air vents and central data display

Gearbox: 5-speed manual
