■ **Golan Heights:** Syria has said peace would require Israel to return Golan – something Israeli Prime Minister **Ehud Olmert** has signalled he is ready to do. Golan is home to about 17,000 Syrians and 18,000 Israeli settlers

■ **West Bank:** Palestinians demand Israeli withdrawal and all Jewish settlements to be dismantled. Israel wants to keep main settlements under its sovereignty – over 275,000 settlers live in West Bank

■ **Jerusalem:** Palestinians want east Jerusalem, including Old City, as capital of their state. 200,000 Israelis live in east Jerusalem

■ **Palestinian refugees:** Palestinians demand right of return for 4.4 million refugees and descendants of 1948-49 war, which marked establishment of state of Israel. Israel says refugees must be resettled in new Palestinian state or remain where they now reside
