

U.S. Army suicides

Suicide in the U.S. Army is at its highest level since records began. A new report shows suicide rates in 2007 were up 20% from the year before and more than double what was reported in 2001

	Suicides	Rate/100,000*
2007:	121	—
2006:	102	17.5
2005:	87	12.8
2004:	67	10.8
2003: Iraq War	79	12.4
2002:	70	11.3
2001: Afghan War	52	9.8
2000:	63	12.1
1991: Gulf War	102	14.4

*Suicide rate in general U.S. population is about 11 per 100,000 people (CDC)
