

# Audi's executive class A4 saloon

The all-new, fourth generation Audi A4 offers fine-tuning of its driving characteristics – damping, engine reactivity, transmission and steering – using technology until now reserved for its A6 and A8 luxury models

**Engines:** 3.2-litre V6 petrol, 2.0, 2.7, 3.0-litre turbo diesels

**Boot:** 480 litres, expandable to 962 litres

Wheelbase: 2,808mm

**Front axle:** Moved 154mm forward to make handling sportier and increase cabin space

**Suspension:** Electrically-controlled shock absorbers adjusted 1,000 times per second. Separate spring mounts

**Display:** Can show rear-view parking camera

**Variable rate steering:** Gives greater agility at low speeds and more stability at high speed

**Audi Drive Select:** Single button adjusts accelerator pedal response, suspension and power steering. Three modes – **Comfort**, **Dynamic** or **Auto**

Space-saving electromechanical parking brake
