

# BlackBerry brews up Storm

**BlackBerry** maker Research In Motion is to enter the smartphone wars this holiday season with the release of its first touchscreen device – the **Storm** – which aims to close the gap on **Apple's** market-leading **iPhone**

► **Touchscreen:** Spring-loaded display functions uniquely as one large button. User clicks to confirm selections

► **Connectivity:** Access via 3G HSDPA instead of Wi-Fi. Includes Bluetooth, GPS, USB, 3.5mm stereo headphone jack

► **Features:** Full HTML web browser, email, video and music player, SMS, MS Office editing, removeable battery

**Virtual keyboard**  
Replaces buttons.  
Choice of SureType layout or QWERTY keyboard when phone is turned horizontally
