

# Car that can sense danger by itself

Volvo has packed its XC60 with safety features including *City Safety*, which applies the brakes at low speed if its sensors detect an imminent collision; *Distance Alert*, which warns if the vehicle in front is too close; and *Auto Brake*, which slows down the XC60 to avoid an accident

**Engines:** Five-cylinder diesel, 3.0 litre, six-cylinder turbocharged petrol

LED tail-lights

Wheelbase: 2,774mm

All-wheel drive

**Distance Alert:** Radar sensors constantly measure distance to vehicle in front. Red warning is projected on windscreen and buzzer sounds if gap becomes too small

**Protection:** Reinforced passenger compartment, energy-absorbing front structure, side impact panels

Tilt-telescoping steering wheel with built-in audio and phone controls

**Lane Departure Warning:** Alerts driver if car leaves lane without indication

Separate displays for sat-nav and stereo

**Transmission:** Six-speed auto
