

Emissions cuts planned

Australia has announced plans to cut its greenhouse gas emissions by at least 5% by 2020 – far less than the 40% demanded by environmentalists

PLANNED CUTS Australia

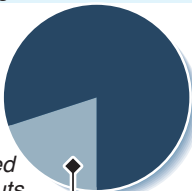

Up to **15%** cuts depending on success of Copenhagen talks

Total emissions 2000
552 million tonnes of CO₂ equivalent
2006 – 550m

EU-15

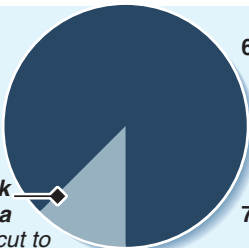

Committed to 20% cuts

1990
4,244m
2006
4,151m

U.S.

Barack Obama
plans cut to

1990
6,242m
2007
7,282m

1990 levels by 2020, 80% by 2050
