

Whatever Works

Director/writer: **Woody Allen**

Starring: **Larry David, Evan Rachel Wood, Patricia Clarkson**

After four films shot in Europe, Allen returns to his beloved Manhattan.

Boris (David) is a ranting, suicidal misanthrope who has never met a person with whom he couldn't find extreme fault. The Allen-style character becomes entangled with Melody (Wood), a penniless young Southern Baptist runaway.

Boris sets the tone within minutes: "This is not a feelgood movie! You wanna feel good, go get yourself a foot massage"

A Sony Pictures Classics release.
