

# Amazon's big e-reader makes worldwide debut

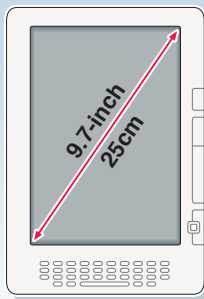

Amazon's *Kindle DX* – aimed at readers of large format documents such as newspapers and textbooks – is to go on sale in over 100 countries, just three months after the smaller *Kindle 2* was launched globally

**Screen:** 1200 x 824 pixel resolution, 16 shades of grey. Auto-rotate feature permits reading in landscape mode

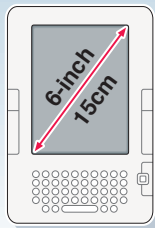

**Keyboard:** Oblong buttons for making annotations and searching in web browser
