

# Israel to build nuclear reactor for civilian use

**Israel has unveiled plans to work with its Arab neighbours to build a nuclear power plant aimed at meeting the region's energy needs. Israel has not signed the nuclear Non-Proliferation Treaty and neither confirms nor denies having nuclear weapons under its policy of "ambiguity" ...**

## SUSPECTED WMD FACILITIES

## Navy base for three cruise-missile-armed *Dolphin* submarines

**Rafael:** Nuclear weapons and missile laboratory

**Be'er Yaakov:**  
Main missile  
assembly site.

**Tel Aviv:**  
Military  
command  
centre \_\_\_\_\_

**Soreq:  
26-MW  
pool-type  
research  
reactor**

**Palmachim:**  
Missile test  
and space  
launch facility

GAZA  
STRIP

## New nuclear reactor to be built in northern Negev desert

**Mishor Rotem: –**  
Fuel cycle facility

**Yodefat:**  
Assembly  
facility

**Eilabun:**  
Storage  
facility

**Nes Ziyayona:**  
Main chemical  
and biological  
facility

**Tel Nof:** Nuclear weapons storage bunkers

## Sedot Mikha: Jericho nuclear- tipped missiles base

**Dimona:**  
26-MW heavy-water reactor fuelled by natural uranium.  
**Experts believe facility could have produced between 100-200 nuclear devices**
