■ On Gordon Brown: His luckless successor had ***“no instinct at the human, gut level”*** and ***“emotional intelligence, zero,”*** but adds that it would have been wrong to sack him as Chancellor

■ On Iraq: ***“I... regret with every fibre of my being the loss of those who died,”*** but ***“I can’t regret the decision to go to war”***

■ On himself: I’m just a ***“normal human being”***
