

Apple record Q4 results

Apple's fourth-quarter revenue soared 67% to over \$20 billion from \$12.2bn last year. The biggest contributor to the surge was an unexpected 90% increase in sales of its iconic iPhone

Sales: July through September

Macs	3.89 million	Up 27%
iPads	4.19 million	—
iPhones	14.10 million	Up 91%
iPods	9.05 million	Down 11%
