

# Audi's A7 hatchback coupe

Based on Audi's common-parts *Modularer Längsbaukasten* engineering, the A7 Sportback – the carmaker's 12th new model in as many months – is a technology showcase. Buyers can opt for automatic parking, all-LED headlights, fighter-like head-up displays and adaptive air suspension

**Storage:** 535 litres, or over 1,400 litres with rear seats down

**Engines:** Two V6 petrol, two turbodiesel, with automatic start-stop

Wheelbase: 2,914mm

**All-wheel drive:** Splits torque, sending 60% to rear wheels. Torque-vectoring software controls braking every few milliseconds for each wheel in response to speed and road conditions

**Body:** Doors, bonnet, hatchback and front wings are aluminium to reduce weight

Head-up display

**Sat nav/multimedia screen:** Wi-Fi links to Google Maps. Data from route used to select gears to maximize fuel economy

**Transmission:** *Multitronic* drives front-wheel model. *DSG* seven-speed, twin-clutch gearbox drives all-wheel model

**Touchpad:** Text entered appears on multimedia screen

**Bang & Olufsen** stereo system
