

Third generation Ford Focus

The all new, third generation Ford Focus offers class-leading features including self-steering, dual-clutch gearboxes, a new range of EcoBoost engines, and EcoMode software to help drivers perfect driving techniques

Bodystyles: Five-door hatchback or estate

Engines: Turbocharged 1.6 litre, direct injection petrol, or Duratorq diesel

Wheelbase: 2,648 mm

Body: 55% high strength steel and 26% ultra-high strength boron steel

EcoMode: Generates personalized scorecard, monitoring gear shifting, anticipation and speed to improve eco-driving skills

SYNC: Voice control activation combines Bluetooth, satellite navigation and entertainment systems

Lane Departure Warning: Detects when car approaches road markings without use of indicator. Alerts driver by vibrations through steering wheel or applies corrective self-steering

Transmission: Six-speed manual or six-speed automatic dual-clutch Powershift
