

Luxury hatchback with low running costs

The Lexus CT200h premium family hatchback uses Toyota's hybrid running gear to deliver fuel economy of 4.1 litres/100km* and ultra-low carbon dioxide emissions of just 95g/km

Hybrid powertrain: 1.8-litre petrol engine and regenerative braking-electric motor drive front wheels

Wheelbase: 2,600mm

Power gauge: Energy flow battery drain/recharge display

Power switch

20.3cm Thin Film Transistor display

Mode selector: Choice of Eco, Normal, Sport or EV (electric-only range up to 2km)

Remote Touch interface: Works like mouse to select functions on TFT display

Sport mode: Power gauge becomes tachometer and display glows red instead of blue

Performance: 0-100km/h in 9.8 secs, maximum track speed of 180km/h
