

Fiat presents new super-compact Panda

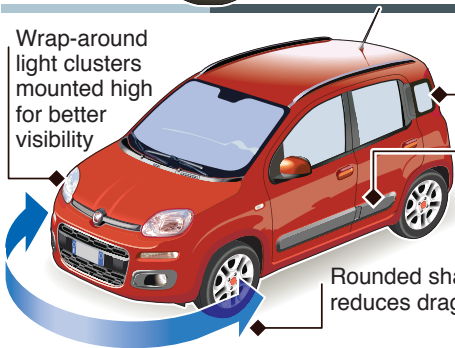

The Fiat Panda launches with cutting-edge powertrains – two new *TwinAir* 875cc, two-cylinder petrol engines, 1.2 *Fire* petrol and 1.3 *Multijet* diesel – all with *Start&Stop* to reduce fuel consumption and CO₂ emissions

Options to follow: Petrol/methane and petrol/LPG bi-fuel engines; semi automatic Dualogic gearbox

Wheelbase: 2,300mm

Wrap-around light clusters mounted high for better visibility

Rounded shape reduces drag

Storage: 870 litres with rear seats folded down

Third side window extends visibility when reversing

Side, front and rear inserts act as buffers in tight city driving conditions

Blue&Me TomTom LIVE: Sat Nav, mobile phone and MP3 player integration

Gear shift indicator prompts optimum gear to reduce fuel consumption

Five-speed manual gearbox
