

Super-rich control 40% of world's wealth

A global super-rich elite had on average \$26 trillion – more than the U.S. and Japanese economies combined – hidden in secret tax havens at the end of 2010, according to the London-based Tax Justice Network

\$1 trillion is \$1,000,000,000,000

*Wealth deposited in bank and investment accounts, excludes assets such as property
