

Nissan joins London's black cab race

Nissan has unveiled a new design for London's black cab which it claims is 50% more fuel efficient. The NV200 London Taxi will compete with the classic TX4 and Mercedes-Benz's Vito

Zero-emission electric version to be tested in London in 2013

Manoeuvrability: London taxis must be capable of ultra-tight 7.62-metre turning circle

Mercedes Vito

Engine 2,148cc diesel
Economy 8.6 litres/100km
CO₂ 229g/km

TX4

Five-seat cabin
Engine 2,499cc diesel
Economy 8.8 litres/100km
CO₂ 233g/km
