

Mobile makers rush to launch “phablets”

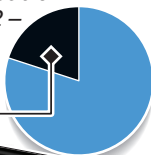

Following the success of Samsung’s Galaxy Note II, rival smartphone makers are scrambling to release their own “phablets” – super-sized handsets with a screen size measuring at least five inches (13cm)

Samsung Galaxy Note II

Screen	5.5-inch
Pixel density	316ppi
Processor	1.6GHz
Main camera	8MP
Thickness	9.4mm
Price	\$650

Phablets likely to account for nearly 20 percent of all smartphone sales in 2013 – double that of 2012 – according to market research

ZTE中兴

ZTE Nubia Z5

Screen	5.0-inch
Pixel density	443ppi
Processor	1.5GHz
Main camera	13MP
Thickness	7.6mm
Price	\$550

SAMSUNG

Huawei Ascend Mate

Screen	6.1-inch
Pixel density	361ppi
Processor	1.8GHz
Main camera	13MP
Thickness	9.9mm
Price	\$480

HUAWEI
