

Global unemployment

The number of unemployed people around the world rose above 200 million in 2013 as job opportunities failed to grow at the same pace as the global workforce

2013: Global unemployment rate remains unchanged at 6.0%

2013: 201.8 million unemployed, increase of 4.9 million from 2012

2013 = estimated, 2014-16 = projections
