

# UN sustainable development targets for 2030

United Nations member states have agreed to an ambitious agenda that features 17 Sustainable Development Goals that aim to end poverty, promote prosperity and boost people's well-being, while protecting the environment, by 2030

**13** Take urgent action to combat climate change and its impacts (acknowledging that UNFCCC\* is primary international forum for negotiating global response to climate change)

**6** Ensure availability and sustainable management of water and sanitation

**7** Ensure access to affordable, reliable, sustainable and modern energy

\*United Nations Framework Convention on Climate Change

**14** Conserve and sustainably use oceans, seas and marine resources for sustainable development

## Environment

## Infrastructure and resources

**2** End hunger, achieve food security and improved nutrition and promote sustainable agriculture

**1** End poverty in all its forms

**3** Ensure healthy lives and promote well-being

**4** Ensure inclusive and equitable quality education

**8** Promote sustained, inclusive and sustainable economic growth and full and productive employment

**10** Reduce inequality within and among countries

**5** Achieve gender equality

**9** Build resilient infrastructure, promote inclusive and sustainable industrialisation and foster innovation

**15** Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt land degradation and biodiversity loss

**12** Ensure sustainable consumption and production patterns

**11** Make cities and human settlements inclusive, safe, resilient and sustainable

## 17 Implementation

Strengthen means of implementation and revitalise global partnership for sustainable development
