

PyeongChang Olympic Torch design

The Olympic Torch is designed to reflect the spirit of unity and connection between all competitors from the world's five continents

■ **Pentagon:** Five-sided shape represents five continents to which all competitors belong

■ **Stars:** Repeating motif signifies first consonant of second syllable of Korean alphabet for PyeongChang, and, again, symbolises five continents

■ **Gold:** Inner sheath intended to be extension of flame once torch is lit

■ **Inextinguishable flame:** Torch designed to withstand drastic changes in weather, which can occur during **Relay**

Altitude above sea level: **2,000m**

Wind speed: **35m/sec**

Min: **-35°C**
Max: **30°C**

“
Let
Everyone
Shine
”

■ **Rain:**
Can drain down
inside and out of base

■ **Flame height:**
20cm
(burns for 15 minutes)

■ **Five Pillars:**
Form designed to mimic flames

■ **Torch Relay:** Weaves its way across 2,018km
