

# Norway seeks “Tesla tax” on electric cars

Norway – a world leader in zero-emission vehicles – is proposing a one-off tax that will hit owners of large electric cars which have hitherto been exempt from heavy taxes imposed on other vehicles

## Tax proposal:

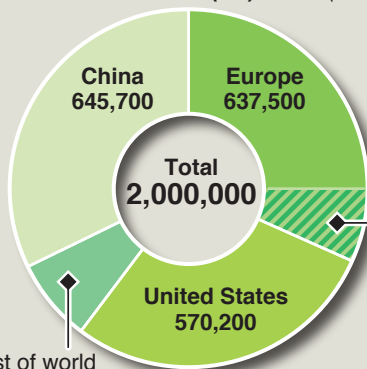

Would add as much as €8,855 (Nkr82,800) to cost of Tesla Model X

Sep 2017: 6,524 electric car sales (48.4% market share)

177,354

Global electric vehicle (EV) fleets (Dec 2016, includes hybrids)

Rest of world  
146,600

## Norway's booming EV fleet

EVs (cumulative)  
New registrations
