

# The picture perfect Dubai Frame

The *Dubai Frame* is a \$43.5m feat of engineering that links two towers by an observation deck to form a huge "picture frame" building

**Sky deck:** 100m<sup>2</sup> bridge offers uninterrupted views of *Old Dubai* to north and *New Dubai* to south

93m

Helicopter to scale

**Elevator:** Designed by German engineering giant **ThyssenKrupp** (who also sponsored competition to design building)

**Mezzanine museum:** Showcases Dubai's transformation from fishing village to metropolis through innovative use of projections, mist effects, smells and motion
