

India on brink of worst-ever water crisis

India is suffering from the worst water crisis in its history with some 600 million people facing acute water shortage. The crisis will worsen as demand is projected to be twice the available supply by 2030

BASLINE WATER STRESS

6% of GDP likely to be lost by 2050 due to water crisis

States ranked lowest at managing water – such as Uttar Pradesh, Bihar, Rajasthan and Haryana – are home to nearly half of India's 1.3bn population and bulk of agricultural produce

Around 200,000 Indians die every year because they have no access to clean water

WATER DEMAND AND SUPPLY IN INDIA (Billion cubic metres)
