

New Apple Watch and iPhones

According to industry leaks, Apple is set to announce a bigger Watch and three new iPhone models at its annual keynote event

APPLE WATCH

SERIES 4

Apple's fifth smartwatch

Edge-to-edge display:

Reduced bezel size increases visible screen by 15%

New face:
Can show up to eight complications

Additional microphone:
Takes advantage of new *watchOS 5* Walkie-Talkie chat app

Case: May be marginally thinner than previous iterations

Also: Improved health monitoring capabilities

Series 3 display

IPHONE XS

Single camera

Stainless steel frame
5.8in (147.3mm)
OLED screen
Price: \$800*

Aluminium frame
6.1in (154.9mm)
LCD screen
Price: \$700*

Stainless steel frame
6.5in (165.1mm)
OLED screen
Price: \$1,000*

Improvements: 2018 iPhones support upgraded A12 processors, faster 4G connections, and edge-to-edge displays that do away with **home button** (feature since first iPhone in 2007) in favour of **Face ID**
