

# World hunger on the rise

The number of people going hungry has risen for the third year running to more than 820 million, according to a UN report which finds that conflict, climate change and weak economic growth are to blame

NUMBER OF UNDERNOURISHED (2010-18)

DISTRIBUTION OF UNDERNOURISHED (millions, 2018\*)

Africa and Asia account for more than nine out of ten of the world's stunted children, at 39.5% and 54.9% respectively

World population  
7,632.8

Undernourished  
821.6

Asia  
513.9

Africa  
256.1

Latin America & Caribbean 42.5

Oceania, Northern America, Europe 6.5

Other 2.6
