

Singapore showcases air taxi VoloPort

The world's first vertiport for flying taxis is being built in Singapore's Marina Bay – part of the *Intelligent Transport Systems World Congress*

Oct 21-25, 2019: VoloPort (also known as “vertiport”), similar to this company illustration, exhibits at **The Float** – world's largest floating stage

VOLOCOPTER 2X

Oct 22: Test pilot takes multicopter up for 3-minute solo demo flight around bay

Power: 18 electric motors driven by nine independent batteries. Flight time on single charge: **27 minutes**

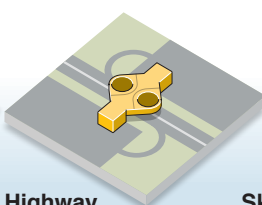

Safety: Parachute in case of system failure

VOLOPORT

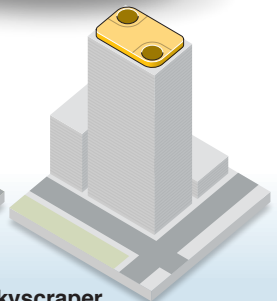

Modular design lends itself to being applied in different urban environments
