

Two of the best gadgets from CES 2020

Interesting highlights of this year's CES show from Las Vegas include the Bosch *Virtual Visor* for cars, and the tiny *Air Pix* selfie-taking drone

VIRTUAL VISOR

Camera

Camera tracks light and shadows over driver's face

Algorithm analyses driver's view and darkens area of LCD display through which light hits eyes – rest remains transparent

BOSCH

AIR PIX

AIR
SELFIE

Cost:
\$99.95

LCD panel

USB
port
Charging

Palm-sized drone
can fly for six
minutes

Camera
12MP stills, 1080p videos (30fps)

Micro
SD Card

Gesture controls

User can tell drone to take photos or videos using arm gestures (or on-screen controls in smartphone app)
