

What happens if Trump is incapacitated?

President Trump says he is taking a malaria drug to protect against the coronavirus, despite government warnings of potentially fatal side effects

Hydroxychloroquine
Sulfate Tablets, USP
200 mg

30 tablets

■ Hydroxychloroquine:

Malaria drug can cause serious heart problems when paired with antibiotic azithromycin

■ 25th Amendment:

Forged in shadow of 1963 assassination of President

John F. Kennedy (right), 25th Amendment of U.S. Constitution would allow Vice President **Mike Pence** (left) to execute transfer of power if Trump is incapacitated

We the People
insure domestic Tranquility, provide for the common defence
and our Posterity, do ordain and establish this Constitution
Article I
Section 1
All legislative Powers herein granted shall be vested in a Congress of the United States, which shall consist of a Senate and House of Representatives.

■ Presidential Succession Act:

If Trump and Pence are both unable to fulfill their duties, neither can invoke 25th Amendment. Succession Act puts speaker of House of Representatives, **Nancy Pelosi** (right) – a Democrat – next in line for presidency
