

# Floods wreak havoc across South Asia

Floods and landslides triggered by heavy monsoon rains in Nepal, Bangladesh and northeastern regions of India have killed hundreds of people and affected millions more

*Partially submerged houses along Brahmaputra River in Assam, India*

**Nepal:** At least 114 people killed and dozens missing due to floods and landslides

**Bihar:** More than 300,000 people affected by floods

**Assam:** Over 2.4 million people affected in 24 of 33 districts. At least 85 people killed and 100,000 hectares of cropland submerged
