

Covid-19 ranks among biggest global killers

The world is on the cusp of officially recording 1 million deaths from Covid-19, but the real tally might be closer to double that figure

HOW COVID-19 COMPARES TO ANNUAL GLOBAL KILLERS (*millions of deaths*)

*Study by Alan Lopez, laureate professor and director of University of Melbourne's Global Burden of Disease group. Note: Deaths by cause data from World Health Organisation, 2016
