

# Surge in natural disasters in past 20 years

Almost twice as many natural disasters have been reported in the past 20 years compared to the preceding two decades, with climate change largely to blame for the rise, according to a UN report

## NUMBER OF REPORTED DISASTERS (2000-2019)

Per country/territory

## DISASTER IMPACTS COMPARED

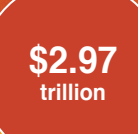

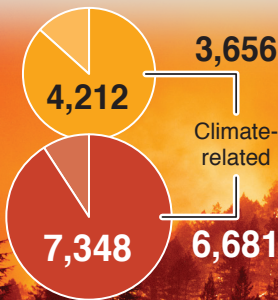

1980-1999 2000-2019

Reported disasters
