

# China studies plan for return of 737 Max

China's aviation regulator said it is studying a plan with Boeing Co for recertification of its Boeing 737 Max fleet, which has been grounded for nearly two years following two fatal crashes

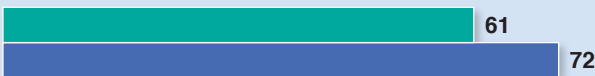

**Boeing 737 Max:** Passenger jet making gradual return to service after 20-month grounding by global regulators

## BOEING 737 MAX FLEET STATUS

Number of aircraft by country / region

United States

China

Europe

Canada

Middle East, Africa and other

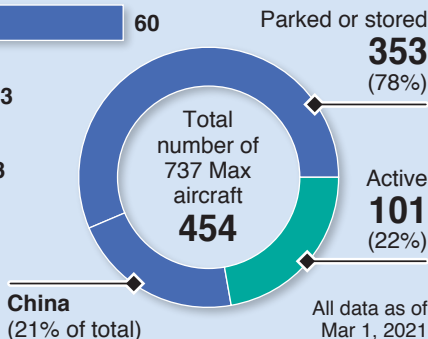

Asia and Pacific (excluding China)

Latin America and Caribbean

**Civil Aviation Administration of China (CAAC)** says "major safety concerns" with 737 Max have not been fully resolved

**U.S. Federal Aviation Administration (FAA)** and several other regulators have already cleared plane to fly again
