

U.S. Senate demands report into UFOs

Decades after the infamous Roswell incident captivated Americans, recently released U.S. Navy videos of Unidentified Flying Objects (UFOs) that defy explanation have led to legitimate inquiries from government

GLOBAL UFO SIGHTINGS, 1947-2021

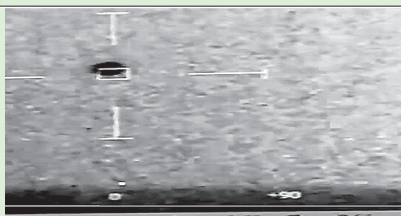

May 23, 2019: *SpaceX* launches first batch of *Starlink* satellites, which appear as string of stars moving in unison across night sky. Spike in sightings could be partly linked to this manmade phenomenon (currently 1,500 in orbit)

July 8, 1947: Roswell Army Air Field (RAAF) public information officer **Walter Haut** issues press release stating personnel from 509th Operations Group have recovered “**flying disc**”, which crashed on ranch near Roswell, New Mexico

May 17, 2021: Newly leaked U.S. Navy video recorded in July 1919 (right) appears to show spherical unidentified object flying over water near San Diego before splashing into ocean. U.S. intelligence agencies are to deliver report on UFOs to **Congress** in June
