

# Boeing forecasts strong China jet demand

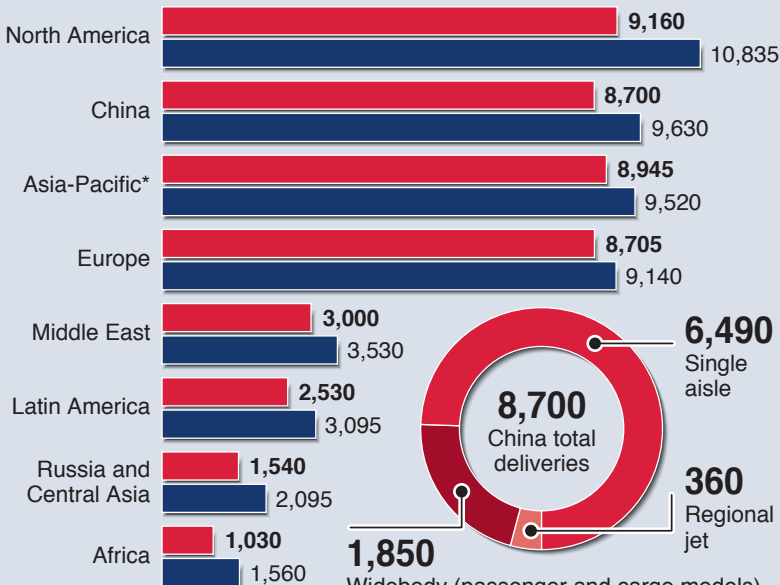

Boeing expects that Chinese airlines will need 8,700 new aircraft – valued at almost \$1.5 trillion – over the next two decades, doubling the country's commercial fleet size as air travel booms

## PROJECTED DEMAND FOR COMMERCIAL AIRCRAFT

■ Deliveries (2021-2040)

■ Total fleet by 2040

\*Does not include China

1,850

Widebody (passenger and cargo models) – represents 20 percent of global deliveries
