

Germany under fire over Ukraine weapons

Germany is facing criticism for its lack of material support for Ukraine, with not a single piece of heavy weaponry delivered directly to date

STATUS OF GERMAN HEAVY WEAPONS

(as of Jun 6, 2022)

■ Promised to Ukraine

■ Requested by Ukraine

■ **Marder:** Swap deal aims to send 100 infantry fighting vehicles to Greece, which would then supply Soviet-era **BMP-1** vehicles to Ukraine

■ **Gepard:** Deployment of first 15 anti-aircraft tanks due in July. Up to 50 refurbished vehicles planned to be delivered from German army stocks

■ **Leopard:** Germany offering to donate 15 main battle tanks to Czech Republic, in exchange for Prague sending **T-72** tanks to Ukraine

■ **IRIS-T SLM**
German medium-range surface-to-air guided missile system could be deployed in Ukraine by November

■ **MARS II MLRS**
Ukraine due to receive four multiple launch rocket systems from German military inventory

■ **Panzerhaubitze 2000:** Seven rapid-fire 155mm self-propelled howitzers – with 40km range – to be sent to Ukraine this summer
