

Internet Explorer is officially dead

Support for the flagging *Internet Explorer* browser has been officially ended by Microsoft, signalling the demise of the once-dominant platform

SHARE OF INTERNET BROWSER MARKET (%)

Internet Explorer

Jun 15, 2022: Microsoft officially ends support for 27-year-old web browser

Chrome

May 2022: Google's **Chrome** browser has dominant market share of **64.95%** – more than 45% ahead of its nearest rival, **Safari**

Future of **Firefox** is questionable as it flounders with dwindling **3.26%** share

Firefox

Other

Safari

Edge

Apr 29, 2015: Microsoft bundles its new browser, **Edge**, with **Windows 10** and **Xbox One**, but it fails to have much impact. It relaunches it again in **Jan 2020**, built upon new architecture, with marginal success
