

# Missile would cross “red line”

Moscow has warned that if Washington supplies Kyiv with its long-range MGM-140 Army Tactical Missile System it will have crossed a “red line” and become “a party to the conflict”

**Aug 9, Saky airbase:** Series of explosions rock Russian base in Crimea, 230km from Ukrainian-controlled territory

**Flight:** Missile performs rapid and sudden course corrections to avoid interception

## MGM-140 Army Tactical Missile System (ATACMS)

Solid fuel, range: Up to 300km

Missile length: 4m, diameter: 610mm

### Warheads:

Anti-personnel submunitions, or 221kg high-explosive – same warhead used in Navy's *Harpoon* anti-ship missile

### Precision:

GPS guidance system gives CEP (circular error probable) of 10-50m

### Launcher:

High Mobility Artillery Rocket System (HIMARS) supplied to Ukraine
