

Blast in Poland “likely unintentional”

NATO says the missile strike in Poland was likely an accident caused by Ukraine’s air defences responding to a Russian missile barrage

Nov 15, Przewodów:
Blast kills two people
at grain facility.
Polish president
Andrzej Duda says
Soviet-era S-300
missile is most
likely to blame

***S-300PM surface-to-air
missile system***

Length: 7.5m Range: 150km

Speed: Mach 6 (2,000m/sec)

Launcher with four missiles.
Up to eight launchers
in S-300 battery
