

Foldable, slidable tablet unveiled at CES

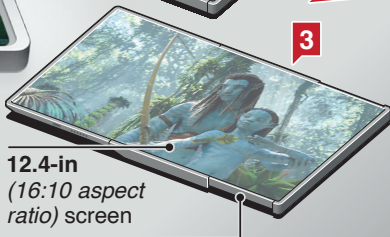

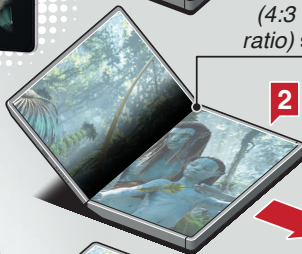

Samsung has revealed the *Flex Hybrid* concept – a tablet computer that incorporates two innovative technologies into one

Opens up
in similar
way to
**Galaxy Z
Fold3**
phone

10.5-in
(4:3 aspect
ratio) screen

12.4-in
(16:10 aspect
ratio) screen

Extends by unrolling concealed
section of flexible OLED display

It may only be concept, but it shows
Samsung is investigating next
evolution in foldable devices

Unveiled at first fully
in-person CES since
2020 and arrival of
Covid-19
