

# U.S. to send Stryker vehicles to Ukraine

The U.S. plans to send Stryker armoured vehicles to Ukraine for the first time, to help Kyiv launch advanced combat operations

## NEW MILITARY AID PACKAGE

Worth \$2.5 billion and expected to include around 100 **Stryker** and at least 50 more **Bradley** armoured vehicles

### ■ Stryker M1126 ICV

Infantry armoured personnel carrier vehicle version

**Road speed:**  
100km/h

**Crew:** Two-man crew plus 9-man infantry squad with equipment

There are 18 variants of Stryker, including mortar carrier, engineer squad vehicle, medical evacuation vehicle, and anti-tank guided missile vehicle

## DIFFERENT PURPOSES

Bradley brings more firepower but carries fewer troops. Lighter Stryker can move infantry faster on paved roads

### ■ M2 Bradley

#### Armament:

25mm M242 autocannon, 7.62mm machine gun, two TOW missile launchers

**Road speed:** 66km/h

**Crew:** Three, plus six soldiers
