

Ukraine invasion – day 394

Mar 24, 2023

1 Ukraine: EU leaders endorse plan to send one million artillery shells to Kyiv over next year as **President Zelensky** calls for more long-range weapons from allies.

Slovakia has supplied four Soviet-era MiG-29 fighter jets to Kyiv

2 Russia: Latest missile strikes may be focusing on Ukrainian military facilities as supplies of long-range weapons fall

3 Kreminna: Russian advances partially regain control over approach to town

4 Bakhmut: Counteroffensive starts soon according to Ukrainian ground forces commander, as Wagner Group fears losing entire force

5 Zaporizhzhia NPP: Situation at nuclear plant “remains perilous” after Russian missile disconnected plant from grid earlier in March
