

U.S. to send rockets in Ukraine aid package

The U.S. is sending a new military aid package to Ukraine that will for the first time include Hydra air-launched rockets

U.S. MILITARY ASSISTANCE TO UKRAINE (\$ billions)

Since Russia's invasion

Hydra 70 (above)
70mm-diameter unguided air-to-ground rocket made by **General Dynamics**. Rockets typically launched from pods attached to wing of aircraft or helicopter

Right: Ukrainian soldiers loading rockets into attack helicopter
