

# Status of global nuclear arsenals

Russia, smarting from a faltering war in Ukraine and recent coup attempt, remains the largest nuclear power, with a stockpile of some 4,500 nuclear warheads compared to around 3,700 for the U.S.

## ESTIMATED GLOBAL NUCLEAR WARHEAD INVENTORIES, 1945-2023

(thousands)

\*China, France, UK, Pakistan, India, Israel, North Korea
