

Number of children killed in Gaza soars

The number of children reported killed in Gaza in just three weeks has surpassed the annual number of children killed across the world's conflict zones since 2019, according to Save the Children

People search for casualties after Israeli strikes in southern Gaza

More than 40% of deaths are children

Further 1,000 children in Gaza reported missing, assumed buried under rubble, so death toll is likely higher

*Since Oct 7
