

PARIS
2024

Event *Medal*

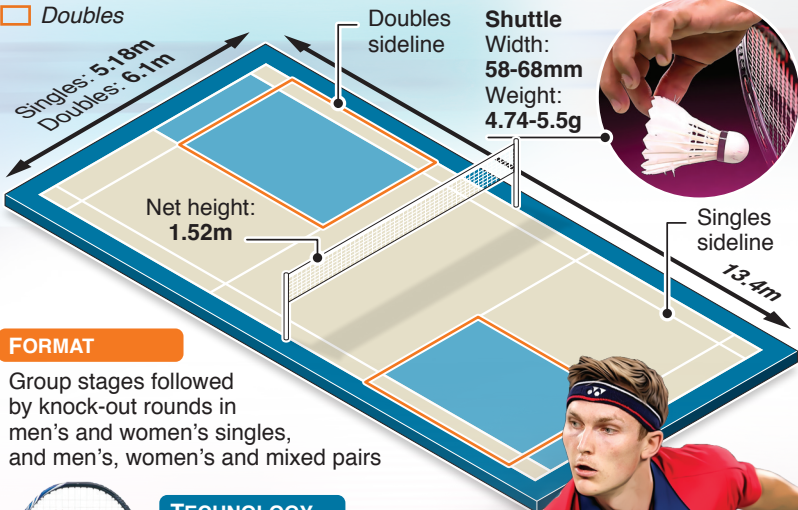

World's fastest racket sport, played on indoor court.
Points won by landing shuttle inside opponent's
court or forcing opponent into making error

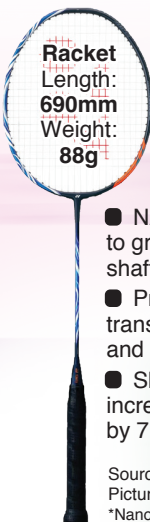

Game duration: **Best-of-three sets, played to 21 points**
Two-point winning margin required

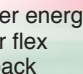

Doubles

Group stages followed by knock-out rounds in men's and women's singles, and men's, women's and mixed pairs

ASTROX 100 ZZ racket –
used by Denmark's Olympic
champion **Viktor Axelsen**
(right) – adopts innovative
NAMD* graphite material

- NAMD bonded directly to graphite fibre in both shaft and frame
 - Produces better energy transfer – greater flex and faster snapback
 - Shuttle speed increased by 7.1%
